Cliff

Sorry I spaced out yesterday we can't meet on the second Wednesday's that conflicts with the Agricultural Advisory Committee most of the year. July , August and September would be okay because the AAC doesn't meet again until October 8,2014, but after that I am obligated with the AAC until I think January 2016. I apologize for forgetting that during our discussions. I have not yet asked Dave but will and would offer Dave Onkles as a substitute in my absent as a planning commission member he is well versed in the critical areas discussion and problem issues.

If you think we need another meeting to make up for getting cut off early I'm okay with that just stay off the 3rd and 4th Wednesday's.

Regarding Wendy's question on BAS I think we need to discuss this in great detail I am aware that DOE uses a water testing protocol using a grab sample and testing only for fecal coliform does not give an accurate picture of E coli pollution it might be cost effective for DOE but unfairly implicates animal agriculture when BAS protocol's would present a fairer view of problem areas. I can suggest a water scientist out of Oregon to explain this to our CACAC also I know of a Washington State licensed Hy

Subject: Re: CACAC materials: additional website citations

Cliff, are there to be any criteria for being added to this list, i.e, can anyone add anything? My concern is that we have a lot of material and limited time, and I would like to make sure that we are focusing on issues specific to critical areas. I also do not want to create a list that provides what might appear to be some type of legitimacy, to see it pulled out and cited at some later date, like during testimony before the council.

So what are the guidelines and standards for adding BAS?

Thanks, Wendy

Subject: CACAC materials: additional website citations

Hello Team,

Roger Almskaar and Wendy Harris have provided some website citations that they believe are worthwhile to the CACAC's efforts and that you should read. I've updated the "Website Citation" list and attached. Please add it to your binder. I'll also update it on the webpage.

Thanks,

Cliff Strong
