INDEPENDENT AUDITOR'S REPORT

June 27, 2008

County Council
Whatcom County
Bellingham, Washington

We have audited the accompanying financial statements of the the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Whatcom County, Washington, as of and for the year ended December 31, 2007, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Whatcom County, Washington, as of December 31, 2007, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 13, during the year ended December 31, 2007, the County has implemented the Governmental Accounting Standards Board's Statement 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.

The management's discussion and analysis on pages 13 through 22, budgetary comparison information on pages 70 through 73, and pension trust information on page 74 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.
