To Whatcom County Officials,

Please do not grant Trillium special favors in their efforts to urbanize the West Blaine area.

Trillium is interested in short term financial gains and while they claim the sewer system is a great idea, it is only because it is linked to their financial success. The residents here have recently or will soon have completed the County required inspections, and for most of us it amounts to confirmation that our systems are working correctly. The environmental impact of city density with hundreds of homes with driveways, roofs and streets present a far greater danger to the seaside environment than our small private septic systems. Trillium has proven that by their clear cut in 2001 and the horrible storm water run-off problems that ensued.

They are clearly attempting to run a SLAM-DUNK with County government as they are so apt to do. They should not be given special favors. TRILLIUM IS NOT ABOVE THE LAW.

Joe Rieg, Blaine, WA, 98230
