Dear County Council,

As you study all the information and all the opinions of the people of our County, please remember that once more growth is in place, it is nearly impossible to remove. Think of all the empty buildings malingering in Everson and Bellingham and all the towns. Destroying more country in the name of progress often is only because someone wants to get richer, not really for our benefit.
Thank you for all you do.

sincerely,
Mary Elizabeth Gaines
Deming, WA.
