Subject: pkremen@co.whatcom.wa.us, council@co.whatcom.wa.us,

I am writing this to voice my complete support of the Revised Sub Area Plan, that local residents, appointed by the County Executive, worked on for almost 2 years. I also support maintaining the UGA in the Columbia Valley where we need a full service grocery store along with other services to diminish the number of driving trips that we all make now. Along with the East county community Resource Center, maintaining and managing development of our UGA will lead to a real community focused center for the Foothills, more local jobs, less carbon emissions, a better tax base for our school district and we can spend more time with our families instead of in our cars.

Kind regards,
Carole MacDonald
