LONG RANGE
PLANNING DIVISION

Dear David Stalheim, Martin Blackman:

I am writing to comment upon the Sub Area Plan and proposed EIS. As a current resident of Columbia Valley I am very concerned about the area's growth and development. I have two particular concerns with respect to Columbia Valley's proposed development and the Majority Report for the Sub Area Plan:

1. Water Quality and Quantity.
2. Increased traffic and safety.

I urge you to adopt the Minority Report of the recently completed Sub Area Planning Committee so these very important concerns are evaluated more closely before any further development of the Columbia Valley.

Sincerely,

Leta Koon
