RE: Foothills Sub-Area Plan

The Foothills Sub-Area Plan is not what we want for this area. This is a rural and recreational area and we want to keep it that way. The fact that this plan was made by people who are not from this area is just plain wrong. This is an attempt by government to plan for an area in which the people of the area are not being heard. In many meetings I have attended the people of this area stated that they wanted it to remain rural. The people who wrote this plan did not listen to the people from this area. County Executive Pete Kremen stacked the committee with people who are not from this area.

We do not need more traffic, taxes, or development in this rural area. The cost to the tax payers of this area would be completely unexcitable.

Please reject this plan.

Thank you.
