RE: Availability of public school service for Red Mountain Estates

Dear Mr. Schroeder:

In response to a request from S.C. Goshen LLC & Holly Associates, LLC (the "Developer"), the Mount Baker School District confirms that, subject to the Developer's execution of a school mitigation agreement, school services are available for the proposed Red Mountain Estates Long Subdivision in Columbia Valley.

In order to mitigate the impacts of its development, the Developer will be entering into a voluntary SEPA Mitigation Agreement with the School District. The parties are working in good faith to finalize this Agreement and will do so prior to preliminary plat approval. Receipt of this executed agreement should be a condition of preliminary plat approval.

Please contact me if there are any questions.

Sincerely,

Richard Gantman, Ed.D.
Superintendent
