Subject: Re: Rural Element update project

Let me see what I can do on this end. I'll try to get a letter drafted and signed asap. But it might not be available in time for the PC hearing. Hopefully they will continue to accept written comments. I have a feeling they might be tied up with this proposal for some time. : -)

As for a City Council meeting, it would probably be July 13 or July 27.

Greg,

Yes, we would be willing. Let me know when you would like this to happen. Our Planning Commission is having the hearing next week on July 9th. I don't know if they will keep the written record open for some time after that. I will assume that the County Council will also have a public hearing and accept input. Regardless, getting the information to the city would be helpful.

David,

Would someone from the County be willing to come to a City Council meeting and talk about the proposed comp plan/zoning changes for the areas around Bellingham?

I think our Council would be particularly interested in hearing about the changes as it relates to the Lake Whatcom Watershed, Sudden Valley, Chuckanut, Emerald Lake, etc.

FYI - I have recommended to the Mayor that we send a letter of support for the changes to the County PC and CC.
