Subject: Brenner comments/concerns re:Rural Element inc. LAMIRDs

Barbara, thanks for copying me on this. Do you have any objection to adding your comments to our packet for the 28th? It might help to have the comments in front of everyone as we go through them.

Samya,

Thank you for agreeing to meet with me Friday morning. I have provided an attachment with my concerns/comments. This will probably be helpful in making our meeting more time-efficient.

I appreciated Gary Davis meeting with me for three hours last Wednesday. If I had done the attachment before that meeting it would have likely not taken so long. I am grateful for his patience.

I hope the pages and numbers in my attachment are all correct. I worked on the attachment long hours and when I went over what I wrote I noticed I had a few numbers incorrect. I think I corrected everything but if something doesn't make sense where I have it listed, please let me know.

Thanks again and I will see you Friday.

Barbara Brenner
