Subject: Rural Element maps discussion tomorrow

To all,

I haven't heard if any council members have suggested particular maps for review. I'd like to suggest we review the maps related to the written public comments received to date where the comments discussed a specific geographic location. Using Gary's categorization of the comments, the maps to be discussed would be the ones associated with the following areas:

Birch Bay-Lynden & I-5 - LAMIRD boundary, zoning, Comp Plan policy

Pt Roberts - zoning

Pole & Guide - zoning code
Smith & Guide - LAMIRD boundary, zoning
Laurel - zoning, LAMIRD boundary
Wiser Lake - zoning, LAMIRD boundary

Wiser Lake East - zoning
Hinotes Corner - LAMIRD boundary, zoning

Nugent's Corner - zoning, LAMIRD boundary
Kendall - LAMIRD boundary, zoning
Maple Falls - LAMIRD boundary
Glacier - property ownership, LAMIRD boundary, zoning

Custer - zoning
Van Wyck - LAMIRD boundary, zoning
Acme - zoning
Welcome - zoning

Ft. Bellingham-Marietta - analysis maps
Sandy Point - zoning

Emerald Lake - zoning
Chuckanut - zoning
Lake Samish - zoning

The maps that I can put aside for now are:

Cain Lake
Deming
Diablo
Eliza Island
Lummi Peninsula
Newhalem
North Bellingham
Sudden Valley
Blue Canyon
Guide Meridian Border Crossing
North Lake Samish & I-5
Slater & Elder

Van Zandt
Badger & Guide Meridian
East Lynden
Glacier Springs
Glen at Maple Falls
Kwina
Lake Whatcom
Portal Way North
Slater & Haxton
South Bay
Wickersham

I want to state my preference that for now all areas included in this Rural review, as well as comp plan text and zoning text, be kept 'on the table' for potential discussion or changes as needed for consistency and clarity.

I'd also suggest we spend a bit of time at the end of the meeting reviewing our progress and our schedule.
