Subject: we need a grocery store!!!

hi! hear in Kendall we need a full size grocery store the travel to and from Bellingham is to much for us. the price for gas is to high an the bus system does not run frequent enough to be useful for a lot of us . it is detrimental that we have a grocery store hear in Kendall. now we are not talking about putting in a wal-mart just a Safeway or Albertsons or some thing like that . because the DODSON'S IGA store in Deming is over priced and and there food & veggies look like the leftovers from the food bank .the Everson market is high priced and and is to small they don't carry a lot of stuff . with having a store hear in Kendall I think it will save on a lot of the traffic up n down Mt,Baker hwy and add some new job to the area .and the car emissions rate will be lower please give us our store we need Thanks You
