

Mr. Matt Aamot,

11 September 2008

The No Action alternative is, and would remain a problem for the Balfour-Kendall area. Currently, we have all seen poverty, crime and lack of opportunity for too long. The solution to this, is to designate existing land for residential purposes. Whatcom County will have a better quality of life.

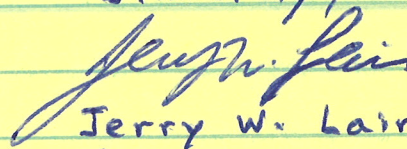

Regarding a lower population growth, this is a simple matter. People will always look for affordable housing. Kendall is an affordable market for the majority of today's potential homebuyers. The demand exceeds all opposition.

Roads should be gradually built and improved as needed. Population growth should not exceed the demand and supply of water. Working together, we can all have a better community, and equal opportunities for quality living.

RECEIVED

SEP 15 2008

LONG RANGE
PLANNING DIVISION

Sincerely,

Jerry W. Lair
(Carpenter - Builder)
