

Whatcom County Planning Commission

- 1) Urge members to preserve rural character
- 2) Support alternative 3 Lamird's in final SEIS
- 3) Support the minority report
- 4) Support foothills friends' public comments
- 5) Before voting on final sub area plan please consider unfinished state investigation about landfills in Kendall which might impact both water districts and if contamination is found would require compliance to clean up toxics.
- 6) Please use the analysis and all of the traffic counts of the Independent traffic report because the county traffic report did not.
- 7) Job's – consider a “no city” UGA with little or no jobs.
- 8) Before voting on sub area plan please take a drive around the sub area and its back roads or possibly a plane ride.
